

CARLETON UNDERGRADUATE ENGINEERING
STUDENT EQUIPMENT FUND

November 29, 2009

To: John Koh

Upon review of your proposal on behalf of **ZigBee Mesh Network**, the Board of Allocators has decided upon the following:

Funding will be provided to a maximum amount of **\$640.21**. This figures covers:

- The entirety of your proposal

ZigBee Mesh Network will be responsible for all costs of the equipment including maintenance and repair costs.

The promotion guidelines, as stated below and on our website, must be followed. The purchaser will check on the possibility of educational discounts.

John Koh will contact the CUESEF Chair to make arrangements for the purchase of and repayment of the equipment to ask any questions regarding the purchasing process and to return this agreement, signed, as acceptance of the conditions stated in this document.

Marc Richard
Chair, CUESEF BoA (Student Member)

Dean R. Goubran
CUESEF BoA (Faculty Member)

Signature of acceptance: _____

General promotional guidelines:

All groups will publicize the donation of the equipment by CUESEF. This will be done by placing a notice on, or next to, the equipment itself. Any publication that the group puts out will have a review of the equipment and outline CUESEF's contribution in its next issue. Each group will work with the CUESEF website administrator and publications person to write a brief outline the equipment and its use for CUESEF to publish on its website and in any other publication or promotional material. Each group will post a notice on its website of the existence of the equipment and CUESEF's contribution. If the group has any other way of promoting the equipment and CUESEF then it should do so. A picture showing how the donation has been publicized will be presented to CUESEF.
